INSTRUCTIONS & NOTES

1. This form is in both English and Chinese. You only need to complete the form in one language.
2. To be eligible to submit a thesis proposal, students must have completed **at least eighteen (18) credits** of coursework, including credits for courses in which they are currently enrolled. The latest students must submit a proposal is before the midterm of the first semester of the fourth year. Generally, a thesis proposal should be at least fifteen (15) pages in length.
3. The thesis proposal oral exam may not take place until **at least one (1) week** after the application is filed and the written proposal is given to all committee members. The thesis proposal committee should consist of the student's adviser and at least one other committee member; scores will be based both on the written proposal and the presentation.
4. Administratively, in order to successfully graduate in the same semester that a thesis is proposed, students must have completed the thesis proposal in the following time frames:
 1. In the last week of November in any first semester;
 2. In the last week of May in any second semester.
 The aforementioned time frames are calculated as follows:
 "Deadline to complete a thesis defense" minus "required two (2) months between a successful thesis proposal and a thesis defense" minus "required one (1) week between applying for a thesis proposal and the actual thesis proposal"
 It is recommended that students apply for their thesis proposal in the first semester before October 15 and in the second semester before April 15, allowing sufficient time for the committee members to review the proposal. Please note that the last possible date for thesis defenses is January 31 (first semester) and July 31 (second semester), and committee members may have scheduling conflicts if students wait until the deadline to do their defense.
5. The thesis must adhere to the academic standards required by the topic. Generally, the thesis should be written in English. If a student wishes to write the thesis in Chinese, they must provide a formal explanation to the thesis proposal committee (i.e. thesis adviser and a committee member) and seek their approval.
